Description of location	Fruit	Variety	Planting date	Rootstock/interstem if applicable	Tree source	Cost	Varietal notes (if any)	Notes on planting
E of shed, northernmost in a line of 4 trees	Pear	Hardy Wisconsin	4/18/2009		Jung's, Fitchburg, WI			Holes fertilized with organic N/P/K and micronutrients at time of planting, but not limed.
E of shed, second from north end in a line of 4 trees	Pear	Bartlett?	4/18/2009		Jung's, Fitchburg, WI			Holes fertilized with organic N/P/K and micronutrients at time of planting, but not limed.
E of shed, second from south end in a line of 4 trees	Prune plum	Mount Royal Dwarf	4/18/2009		Jung's, Fitchburg, WI			Holes fertilized with organic N/P/K and micronutrients at time of planting, but not limed.
E of shed, southernmost in a line of 4 trees	Prune plum	Mount Royal Dwarf	4/18/2009		Jung's, Fitchburg, WI			Holes fertilized with organic N/P/K and micronutrients at time of planting, but not limed.
E. of shed -- E-W line of blueberries, w. end, 11 plants	Blueberry	Blue-ray	4/18/2009		Jung's, Fitchburg, WI			Pearled elemental sulfur and N/P/K plus micronutrients put in planting holes at planting, sod stripped off and removed, sod replaced with compost, leaf mulch applied.
E. of shed -- E-W line of blueberries, E. end, 9 plants	Blueberry	Chandler	4/18/2009		Jung's, Fitchburg, WI			Pearled elemental sulfur and N/P/K plus micronutrients put in planting holes at planting, sod stripped off and removed, sod replaced with compost, leaf mulch applied.
E. of shed -- E of row of blueberries, 4th and 3rd plants from E end of row.	Currant	Red	4/18/2009		Jung's, Fitchburg, WI			
E. of shed -- E of row of blueberries, last two plants at end of row	Currant	Black	4/18/2009		Jung's, Fitchburg, WI			

Description of location	Fruit	Variety	Planting date	Rootstock/interstem if applicable	Tree source	Cost	Varietal notes (if any)	Notes on planting
Around arbor	Grape	Red Swenson	4/18/2009		Jung's, Fitchburg, WI			Vines planted some distance away from arbor due to deep gravel around arbor; trees staked at time of planting, will need to be trained to arbor with wire when they get tall enough. Not fertilized or limed at planting -- will need that!

Task	Date	Approx. # volunteers (incl. leaders)	Notes
Planting apples at N edge of gardens -- 23 trees installed	4/5/2008	13	Will, Melinda, and Robin present. Water hauled by hand. Enthusiastic volunteers. Good rain the following day. Trees limed and fertilized with N-P-K at time of planting.
Pruning of apples at N edge of gardens	3/14/2009	2	Will and Robin. Topped many trees to prevent leader from getting too tall, but aiming for central leader with good whorl. All trees from 4/5/2008 planting appear to be alive, though a couple have been broken off and need to regrow well in 2009 to be keepers.
Planting apples at N edge of gardens -- 8 trees planted	4/11/2009	9	Will, Melinda, and Robin present. Water hauled by hand. Trees limed and fertilized with N-P-K at time of planting.
Fertilizing and liming of 12 apples at W end of N edge of gardens	4/11/2009	1	Alex did this, but had little to work with. Trees need more than they got today -- at least two more handfuls of lime and two of N-P-K organic fertilizer for each.
Spreading of branches on apples at N edge of gardens	3/14/2009	8	Will, Melinda, and Robin present. Spreaders made by hand from sticks and nails -- need better spreaders next time. Trees a little small for spreading at this stage.
Pruning of single semi-dwarf tree in old orchard E of gardens	3/14/2009	5	Will and Robin leading. Substantial wood removed, esp. lots of vertical suckers. Tree is overall in good health.
Pruning of raspberries throughout gardens	3/21/2009	5	Melinda leading.
Pruning of sour cherries W of Brown Shelter in Eagle Heights	3/21/2009	9	Robin and Will leading. Trees old and somewhat sickly (chokecherry black knot fungus), but still potentially productive. Good form restored. Prunings dumped in gully nearby.
Fertilizing and liming of 2008-planted apple trees at N edge of gardens	not done as of 4/18/2009		
Fertilizing and liming of semi-dwarf tree in old orchard	not done as of 4/18/2009		
Fertilizing and liming of sour cherries near Brown Shelter in Eagle Heights	not done as of 4/18/2009		
Planting of 2 plums, 2 pears, 20 blueberries, 4 currants E of shed in Eagle Heights	4/18/2009	8	Melinda, Will, Robin leading.
Fertilizing of trees and bush fruits E of shed in Eagle Heights	4/18/2009	8	Melinda, Will, Robin leading.
Sulfuring of blueberries E of shed in Eagle Heights	4/18/2009	8	Melinda leading.
Liming of trees near shed, liming and fertilizing of grapes near abor	not done as of 4/18/2009		
Manual removal of flowers from apples in row at N edge of gardens	5/8/2009	1
